

# National Audit for Small Animal Neutering guide

“Quality Improvement (QI) is, “the combined and unceasing efforts of everyone...to make the changes that will lead to better patient outcomes (health), better system performance (care) and better professional development (learning)” (Batalden & Davidoff 2007)

## Our team QI advocates are

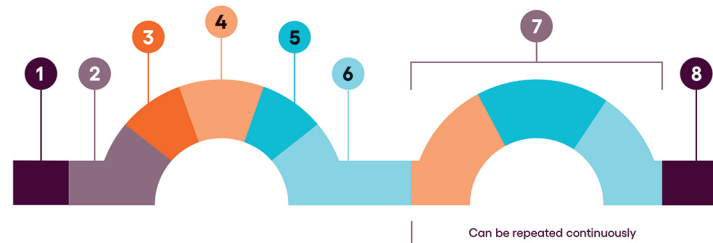

| Our results for 'No abnormality present'   |          | Jan | Feb | Mar | Apr | May | Jun | Jul | Aug | Sep | Oct | Nov | Dec | National benchmark | My groups benchmark |
|--|----------|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|-----|--------------------|---------------------|
|    | Castrate |     |     |     |     |     |     |     |     |     |     |     |     |                    |                     |
|  | Spay     |     |     |     |     |     |     |     |     |     |     |     |     |                    |                     |
|  | Lap spay |     |     |     |     |     |     |     |     |     |     |     |     |                    |                     |
|    | Castrate |     |     |     |     |     |     |     |     |     |     |     |     |                    |                     |
|  | Spay     |     |     |     |     |     |     |     |     |     |     |     |     |                    |                     |
|    | Castrate |     |     |     |     |     |     |     |     |     |     |     |     |                    |                     |
|  | Spay     |     |     |     |     |     |     |     |     |     |     |     |     |                    |                     |
|  Have we submitted our results this month? |          |     |     |     |     |     |     |     |     |     |     |     |     |                    |                     |

The National Benchmark relies on you! Your submitted data goes towards making the benchmark more accurate and more useful for practice teams.

## The veterinary clinical audit cycle

Available from [rcvsknowledge.org](http://rcvsknowledge.org). Developed by the Royal College of General Practitioners [rgcp.org.uk/qi-ready](http://rgcp.org.uk/qi-ready)

- 1** Choose a topic
- 2** Select criteria
- 3** Set a target
- 4** Collect data
- 5** Analyse the data
- 6** Implement change
- 7** Reaudit (repeat steps 4, 5, 6)
- 8** Review and reflect
