

## How to add or change a practice on the RCVS Knowledge Canine Cruciate Registry

There are two ways to add a practice on the Canine Cruciate Registry

1. If you have not already registered you can use the veterinary surgeon's registration form. After you fill out your details, you can add a list of practices here.
2. If you are already registered on the Canine Cruciate Registry you can add more practices or even change your practice by sending an e-mail to amplitude at [customer.support@amplitude-clinical.com](mailto:customer.support@amplitude-clinical.com) you must include the name of the veterinary practise as it shows on the register of veterinary practises premises and the practise premises post code

Our transcripts and closed captions are generated manually and automatically. Every effort has been made to transcribe accurately. The accuracy depends on the audio quality, topic, and speaker. If you require assistance, or something doesn't seem quite right, please contact [ebvm@rcvsknowledge.org](mailto:ebvm@rcvsknowledge.org)
